COPPER SHARES DULL EXCEPT IN FEW INSTANCES

Only Specialties Display Any Activity Worth Mentioning in Past Week; Market for Metal Continues Climbing.

Boston, May 17.—Aside from a few specialties like United States Smelting, Bingham and two or three of the lower-priced issues, the copper shares have been rather dull and uninteresting, and prices have been inclined to sag. The speculative situation is extremely disappointing when viewed in connection with the spirited demand and the astonishing price for copper. The latter is, if anything, even stronger than it was a week ago, heavy sales of September delivery having been reported at 24 cents and for August at 23 1/2 cents. Even for delivery during the first quarter of 1917 the lowest figure quoted is 23 1/2 cents, while for nearby deliveries sellers can easily

obtain 20 cents and better. All this is reflected in producers' profits of unprecedented magnitude, which in turn are being reflected in larger and larger dividends. During the past week St. Mary's Mineral Land declared a dividend of 12 cents May 25, although a dividend of the same amount was paid only three weeks ago. The Champion directors this week declared another dividend of \$1.40 a share, following a dividend of the same amount a month ago. Utah Copper, Chino, Ray Consolidated and Nevada Consolidated are a few of the concerns that are bound to announce further increases in the near future. The Lake properties like Quincy, Nevada, Alameda, Copper Range and Mohawk have by no means reached the limit of their liberality. Alameda is another company that can afford to treat its stockholders most handsomely. Moreover, there are a large number of companies that are getting ready to resume or to pay final dividends.

In the face of all this the failure of the coppers to give a good account of themselves is depressing. As we pointed out some time ago a great many coppers are today actually selling at lower prices than they sold at when copper was quoted at less than 12 cents. Just what is holding them back it is hard to say, but it does seem as if they must begin to gather fresh headway in the near future. If the rank and file of the coppers are worth no more than present prices, then it is no exaggeration to say that they would not be worth more than a small fraction of current prices with copper selling at 15 cents, and for some it would be hard to figure out any value whatever.

JIMMY CONNERS COMES NEAR TO SPILLING BEANS

Balks at Meeting Jack Torres in His Home Town and McCarney Has Job Holding Him in Line.

Kansas City, Mo., May 17.—For a time yesterday it looked as if the match between Jimmy Connors, the Greek fighter from New York, and Jack Torres, the Mexican champion, scheduled for Albuquerque May 30, was off. Connors in learning that the place where he was to meet his Mexican rival was in the latter's home town, balked and called off all negotiations. Billy McCarney who is to assist Louis Newman in staging the big battle after raising the terms already accepted by Connors, finally secured a substantial forfeit for the latter's appearance in the ring at Traction park Decoration day.

When Connors faces Torres it will be one of the last contests he will have in this country, as he will be on his way to Australia the day following the bout with Torres, provided he wins the decision. Tom Andrews who represents Snows Baker, the big Australian promoter, made Connors a flattering offer to make the trip across the big pond, guaranteeing him five matches in the land of the Southern Cross. It was the fact that he feared losing the trip across the Pacific ocean that caused Connors to balk up on his acceptance of the terms offered to go to Albuquerque. He was afraid that Torres would have too much chance of copying the decision from him in his home town and speed the way and plans for the Australian trip.

Connors has started preliminary training here and will leave for Albuquerque about Saturday, arriving there in time to train Sunday at Traction park. Newman, prior to leaving here, stated he would arrive in Albuquerque not later than Saturday and would also work out Sunday, giving the sport followers of his home town a chance to see the greatly improved Torres in action. Torres is admitted by a much cleverer boxer than Connors, but the latter is strong, game, and a very hard hitter.

Billy McCarney writes from Kansas City as follows:
"Things have shaped themselves so that I will be unable to get on my way until tomorrow (Tuesday) or Wednesday night. Will be in your city probably Wednesday night or not later than Thursday. Am anxious to get on the ground and get things going. Had my own troubles holding Connors in line. Look for a great bout."

Your Money Buys Quality!

Coupons or premiums have never been used as an inducement to smoke Prince Albert!

The correctness of our belief that smokers do prefer quality rather than premiums or coupons is proven by the enthusiasm with which Prince Albert pipe and cigarette tobacco has been received throughout the civilized world! Premiums or coupons have never been offered as an inducement to smoke it!

PRINCE ALBERT

the national joy smoke

Prince Albert is sold strictly on merit. It is a tobacco of choice quality, and made by an exclusive patented process that does cut out bite and parch! It took three years and a fortune to perfect that process so that today every man with a desire to smoke a pipe or roll his own cigarettes can do so without a comeback, no matter how tender his tongue or throat may be!

R. J. REYNOLDS TOBACCO COMPANY, Winston-Salem, N. C.

Neither national nor state restrictions on the use of premiums or coupons can in any way affect Prince Albert's sale!

It is not to be wondered at that when smokers consider a choice of tobaccos, their tastes—based on quality—instantly turn them to

Your taste and satisfaction is proof that Prince Albert quality is more desirable than coupons or premiums.

You buy Prince Albert everywhere tobacco is sold, in tippy red bags, 5c; tidy red tins, 10c; handsome pound and half-pound tin humidors, and in that fine crystal-glass humidor with sponge-moistener top that keeps the tobacco in such perfect condition.
